

SMARTER WAREWASHING

faster
cleaner
greener
= Granules

Granule Solo®
The modern and innovative potwashing solution

GRANULDISK®

From dirty to clean in 3 minutes without pre-washing

No pre-washing.

Just scrape & wash
– no pre-washing:

1. Remove any loose particles.
2. Load items into the machine.
3. Choose wash programme and press start!

No soaking, no scrubbing

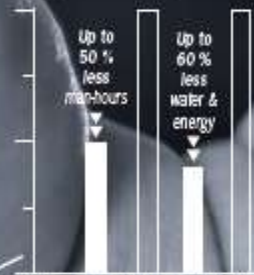

Thanks to the blasting power of the Granules, all food remains are removed in a matter of minutes. Pots, pans, slightly soiled and even burnt-in items are all scoured clean using Granules (tiny plastic pellets), water and a small amount of detergent.

The Granules are reused in the machine; wash after wash.

Each programme is completed by a rinse cycle, which assures that clean items with high hygiene standard are returned to the kitchen.

A substantial reduction of your yearly running costs

■ Granule Solo®
□ Manual potwashing

Based on running costs for washing 120 GN 1/1 per hour or equivalent in pots & pans in Granule Solo® compared to manual potwashing in sinks.

GREEN BONUS
reducing your water and energy consumption automatically reduces your impact on the environment

Granule Solo®

– the latest addition to the GRANULDISK® family.

Minimum space requirements
Granule Solo® is a stand-alone solution that fits in less than 1 m².

Food-Safety & hygiene
Hygienically clean pots and pans, day after day. Granule Solo® machines are built to comply with hygiene norm DIN10512.

Granules or water?
Choose between Granule optimised programmes for pots, pans and heavily soiled items and the high-powered water programmes for slightly soiled and sensitive dishware.
