The power of a commercial embroidery machine yet easy to use

Whether you are a keen hobbyist, or run your own business, Brother's PR-620 gives you the power and technology of a commercial embroidery machine, yet is incredibly easy to use.

A versatile, compact machine which will fit into your home and yet is portable enough to take on the road. Best of all, its attractive price means those big dreams can be realised with just a small investment.

SIX NEEDLES ON A SINGLE HEAD

Embroider multi-colour designs quickly and easily with the PR-620. You can pre-program the correct thread colour sequence for your entire design using the automatic colour change feature. The upper and lower automatic thread trimmers remove the need for time-consuming trimming after your embroidery is complete – so you can embroider more items in less time.

MULTIMEDIA CAPABILITY*

The PR-620 comes with two USB ports so you can link direct to a PC, connect to a memory stick or CD-Rom. There's also a slot for Brother's large range of embroidery memory cards.

BUILT-IN KEYBOARD LETTERING

The full range of fonts, styles and text effects allows you to quickly customise designs directly on the touch screen panel.

EXCLUSIVE AUTOMATIC NEEDLE THREADING

Simply press the automatic needle threading button and the upper thread will pass through the needle quickly and securely.

BUILT-IN THREAD COLOUR INFORMATION

Choosing colours for your project is made easy with the PR-620's large selection of built-in thread colour information.

LED LIGHT

The built-in LED light provides effective lighting for your working area.

EIGHT-SIDED DESIGN TRACE

An exclusive, automatic eight-sided design trace tool gives you more accurate placement of your design.

CUSTOMISE DESIGNS ON-SCREEN

With powerful customising capabilities, you can arrange text, pattern rotation in one-degree increments, change design sizes (increase 20%, decrease 10%) You can also combine and add letting to your designs, all with the easy to use touch-screen LCD display. Intuitive commands and a built in quick reference guide make the control panel quick and simple.

With a choice of 15 font styles, 3 alphabet designs, 10 frame patterns and a selection of embroidery designs all built into the PR-620, you can personalise your projects quickly and easily.

* Not compatible with Disney Memory Card Collection.

Features that meet your commercial needs...

CAP FRAME OPTION*

Embroider popular cap styles quickly and easily with this cap frame attachment. The embroidery area is a generous 130mm wide up to 60mm high.

CYLINDER FRAME OPTION*

Make your life easier with this ingenious tool for embroidering trousers, sleeves, socks, golf covers, virtually anything that's cylindrical and normally difficult to embroider, giving a truly professional result. Cylinder frame 90mm wide x 80mm high.

DIGITISING SOFTWARE*

The PR-620 is compatible with Brother's award-winning PE-Design software, hugely popular with home and commercial embroidery formats, including pes, dst, phc.

ACCESSORIES

Embroidery Hoops

There are four different hoop sizes, just choose the one most appropriate for your project. The PR-620 will automatically know which hoop you have fitted, so you don't have to worry about changing any settings. Hoop sizes available:

- 200mm x 300mm
- 130mm x 180mm
- 100mm x 100mm
- 40mm x 60mm

TOOLKIT

The PR-620 Toolkit is supplied with screwdrivers, scissors, tweezers, cleaning brush, seam ripper, replacement needles and oil. There is also a USB cable supplied as standard so you can connect the PR-620 to your PC.
